

CALL FOR PAPERS AND POSTERS

The 11th Biennial Johan Gullichsen Colloquium

Sustainability Driven Innovations

8th of November 2017, Wanha Satama, Helsinki, Finland

Forest Products Engineers arranges the international **11th Johan Gullichsen Colloquium**, which especially encourages and promotes young engineers and scientists. The colloquium will be held in conjunction with the PI Autumn Summit.

The theme will be “**Sustainability Driven Innovations**”. Papers are asked both for oral and poster presentations. All presentations and posters are challenged to consider the financial and commercialising potential of the research topic in addition to the scientific content.

Please, submit your abstract under suggested topics:

- *Sustainability driven innovations on consumer product applications*
- *Sustainability driven innovations on industrial application and process efficiency*

The deadline for one-page abstracts is June 14th, 2017.

Kindly submit your abstract at www.puunjalostusinsinoorit.fi/jgc
