

Papermaking Science and Technology

a series of 19 books
covering the latest
technology and
future trends

Book 15

Materials, Corrosion Prevention, and Maintenance

Series editors

Johan Gullichsen, Helsinki University of Technology
Hannu Paulapuro, Helsinki University of Technology

Book editors

Jari Aromaa, Helsinki University of Technology
Anja Klarin, ÅF-IPK AB

Series reviewer

Brian Attwood, St. Anne's Paper and Paperboard Developments, Ltd.

Book reviewer

Dave Bennett, Champion Corp.

Published in cooperation with the Finnish Paper Engineers' Association and
TAPPI

Table of Contents

| | | |
|----|---|-----|
| 1. | Introduction | 12 |
| 2. | Construction materials | 19 |
| 3. | Electrochemistry of metallic corrosion and corrosion test methods | 67 |
| 4. | Corrosion forms | 123 |
| 5. | Corrosion in different environments | 175 |
| 6. | Corrosion prevention | 249 |
| 7. | Corrosion monitoring | 331 |
| 8. | Corrosion management | 347 |
| 9. | Concepts of maintenance in the pulp and paper industry..... | 359 |
| | Conversion factors | 429 |
| | Index | 431 |

CHAPTER 1

Introduction

| | | |
|---|--|----|
| 1 | Corrosion and corrosion prevention | 13 |
| 2 | Maintenance | 15 |

CHAPTER 2

Construction materials

| | | |
|----------|---|-----------|
| 1 | General | 20 |
| 1.1 | Alloying | 24 |
| 1.2 | Manufacturing and processing | 25 |
| 1.3 | Heat treatment | 26 |
| 1.4 | Surface films | 27 |
| 2 | Carbon and low alloy steels | 28 |
| 2.1 | Mechanical properties | 30 |
| 2.2 | Corrosion resistance and applications | 32 |
| 3 | Stainless steels | 34 |
| 3.1 | Types of stainless steels | 35 |
| 3.2 | Corrosion resistance and applications | 39 |
| 4 | Nickel alloys | 42 |
| 4.1 | Corrosion resistance and applications | 43 |
| 5 | Titanium | 45 |
| 5.1 | Corrosion resistance and applications | 46 |
| 6 | Welds | 48 |
| 6.1 | Welding techniques | 49 |
| 6.2 | Welding problems | 51 |
| 7 | Plastics and elastomers | 54 |
| 7.1 | Thermoplastics | 55 |
| 7.2 | Thermosets | 57 |
| 7.3 | Elastomers | 60 |
| 7.4 | Corrosion resistance and applications | 61 |
| 8 | Summary | 63 |
| | References | 65 |

CHAPTER 3

Electrochemistry of metallic corrosion and corrosion test methods

| | | |
|----------|--|------------|
| 1 | Basic electrochemistry | 67 |
| 1.1 | Electrode polarization | 72 |
| 1.2 | Electrode surface | 77 |
| 2 | Corrosion cell | 78 |
| 3 | Passivation | 82 |
| 4 | Corrosion research methods | 86 |
| 4.1 | Physical measurements | 87 |
| 4.2 | Electrochemical techniques | 92 |
| 4.2.1 | Polarization curves | 94 |
| 4.2.2 | Potentiostatic and galvanostatic tests..... | 98 |
| 4.2.3 | Polarization resistance measurement | 102 |
| 4.2.4 | Electrochemical impedance spectroscopy | 103 |
| 4.2.5 | Calculating corrosion rates | 106 |
| 4.3 | Instrumentation | 109 |
| 4.4 | Sample preparation | 115 |
| 5 | Field testing | 118 |
| 6 | Summary | 119 |
| | References | 121 |

CHAPTER 4

Corrosion forms

| | | |
|----|---|-----|
| 1 | Uniform corrosion | 124 |
| 2 | Galvanic corrosion | 128 |
| 3 | Flow-induced corrosion | 132 |
| 4 | Pitting and crevice corrosion | 137 |
| 5 | Intergranular corrosion | 149 |
| 6 | Stress corrosion cracking and corrosion fatigue | 153 |
| 7 | Selective leaching | 159 |
| 8 | Hydrogen damage | 161 |
| 9 | High temperature corrosion | 163 |
| 10 | Summary | 170 |
| | References | 172 |

CHAPTER 5

Corrosion in different environments

| | | |
|----------|---|------------|
| 1 | Aqueous corrosion | 176 |
| 1.1 | Acids and alkalis | 177 |
| 1.2 | Oxidizing and reducing agents | 181 |
| 1.3 | Dissolved salts | 184 |
| 1.4 | Dissolved gases | 185 |
| 1.5 | Sulfur and chlorine chemistry | 187 |
| 1.6 | Temperature and flow rate | 191 |
| 1.7 | Corrosion in pulp preparation | 192 |
| 1.8 | Kraft pulping | 193 |
| 1.9 | Sulfite pulping | 198 |
| 1.10 | Mechanical pulping | 201 |
| 2 | Corrosion in the bleach plant | 202 |
| 3 | Corrosion in the paper mill | 210 |
| 4 | Corrosion in chemical recovery | 214 |
| 5 | Corrosion under thermal insulation | 218 |
| 6 | Atmospheric corrosion | 221 |
| 7 | Microbiological corrosion | 224 |
| 7.1 | Biofilm formation | 227 |
| 7.2 | MIC mechanisms | 228 |
| 7.3 | MIC problems | 230 |
| 8 | High temperature corrosion | 231 |
| 8.1 | Mixed atmospheres | 235 |
| 8.2 | Recovery boiler corrosion | 236 |
| 8.3 | Corrosion in high temperature water | 239 |
| 9 | Summary | 243 |
| | References | 244 |

CHAPTER 6

Corrosion prevention

| | | |
|----------|--|------------|
| 1 | Design | 250 |
| 1.1 | Vessels | 251 |
| 1.2 | Joining | 254 |
| 1.3 | Piping | 256 |
| 1.4 | Outdoor constructions | 259 |
| 2 | Material selection | 261 |
| 2.1 | Carbon steels | 267 |
| 2.2 | Stainless steels | 269 |
| 2.3 | Nickel alloys | 274 |
| 2.4 | Titanium | 276 |
| 3 | Modification of environment | 279 |
| 3.1 | Removal of dissolved gases | 280 |
| 3.2 | Inhibitors | 281 |
| 3.3 | Control of biofouling | 283 |
| 4 | Protective coatings | 286 |
| 4.1 | Corrosion protection paints | 286 |
| 4.2 | Paint film protection mechanisms | 296 |
| 4.3 | Organic coatings | 297 |
| 4.4 | Metallic coatings | 301 |
| | 4.4.1 Hot dipping | 302 |
| | 4.4.2 Cladding, lining, and welding..... | 304 |
| | 4.4.3 Thermal spraying..... | 306 |
| | 4.4.4 Electroplating..... | 310 |
| 4.5 | Inorganic coatings | 312 |
| | 4.5.1 Ceramic coatings and linings..... | 312 |
| | 4.5.2 Conversion coatings | 314 |
| 5 | Electrochemical protection | 315 |
| 5.1 | Anodic protection | 316 |
| 5.2 | Cathodic protection | 320 |
| 6 | Summary | 326 |
| | References | 327 |

CHAPTER 7

Corrosion monitoring

| | | |
|----------|--|------------|
| 1 | Physical monitoring techniques | 332 |
| 2 | Electrochemical methods | 335 |
| 2.1 | Potential monitoring | 336 |
| 2.2 | Linear polarization technique | 337 |
| 2.3 | Galvanic current measurement | 338 |
| 2.4 | Tafel method | 339 |
| 2.5 | Electrochemical impedance spectroscopy | 340 |
| 2.6 | Electrochemical noise | 341 |
| 3 | Other methods | 341 |
| 3.1 | Hydrogen flux monitoring | 342 |
| 3.2 | Chemical analysis | 342 |
| 4 | Data collection and analysis | 343 |
| | References | 344 |

CHAPTER 8

Corrosion management

| | | |
|----------|--|------------|
| 1 | Design and material selection | 349 |
| 2 | Operation | 351 |
| 3 | Inspection | 352 |
| 4 | Maintenance | 354 |
| | References | 356 |

CHAPTER 9

| | | |
|-----------|--|------------|
| 12.1 | Maintenance costs compared with product costs | 419 |
| 12.2 | Maintenance costs compared with investment costs | 420 |
| 12.3 | Maintenance costs compared with breakdown costs | 421 |
| 13 | Equipment vendor's role in maintenance | 422 |
| 13.1 | Single equipment vendor | 422 |
| 14 | Vendor of a turnkey project | 423 |
| 14.1 | Action plan for a pulp and paper mill | 423 |
| 15 | Conclusions | 424 |
| | References | 427 |
